

"I FEEL YOU"

I'm stuck here, frozen, in the door...

You've never looked this pale before.

Sunken face, behind a mask, breathes in and out...

This painful silence...makes me wanna' shout...

I Feel You...Watchin' from the corner of your eye...

I Feel You...Letting go without saying goodbye...

I Feel You...Is it me whose keepin' you alive?...

I Feel You...(2 beats)...Here.

How long you been sleepin' anyway?

I stopped countin' after...90 days.

Here I remain, beside your bed, down on my knees...

Am I alone? Can you hear me?

CHORUS

Each night, in dreams, you come to me. This is my "reality."

Chasin' your shadows on my wall. I don't mind the cold at all...

CHORUS

Talk to your picture everyday...

Can't seem to make it past without glancin' your way.

I feel you starin' back at me, my mind you haunt...

Now I can bring you back and you can carry on...

CHORUS
