

*"WITHOUT YOU"*

*I can't stand to start over. I can't stand to start over.*

*I can't stand to start over...without you.*

*In your eyes... I see the good in me. No disguis... in' what you do to me.*

*Can you see... the things I see in you? Could it be... you feel the same way too?*

*CHORUS*

*Always there...so deep you're part of me. Never fear...you are the heart of me.*

*In my mind...I see us both the same. Wasting time...why are we playin' games?*

*CHORUS*

*Without you... I feel me descending. Without you... I'm only pretending.*

*Take my hand...together we can fly. Understand...as time is passin' by.*

*I will be...the one you've waited for. Set my free...from all who came before...*

*CHORUS*

*Without you... Without you... Without you.*
